International Opportunities Fund

purpose of the fund: igniting potential and expanding horizons

The purpose of the International Opportunities Fund is to encourage Wales' professional arts practitioners and arts organisations to develop their practice internationally, to raise the profile of our arts overseas and to strengthen international artistic engagement within Wales .

The fund supports **overseas visits** aimed at the development of international work (both in Wales and overseas) and the presentation and delivery of artistic activity outside the UK. Grant support is available primarily towards travel and accommodation costs, although costs relating to the delivery of project activity will also be considered.

The scheme is competitive, and the maximum level of support is £5,000. Wales Arts International will consider the level of financial support requested and will make a decision based on the priorities and criteria outlined below, together with the level of funding available.
